

My Furniture Mart

--->> Day 4 report documentation

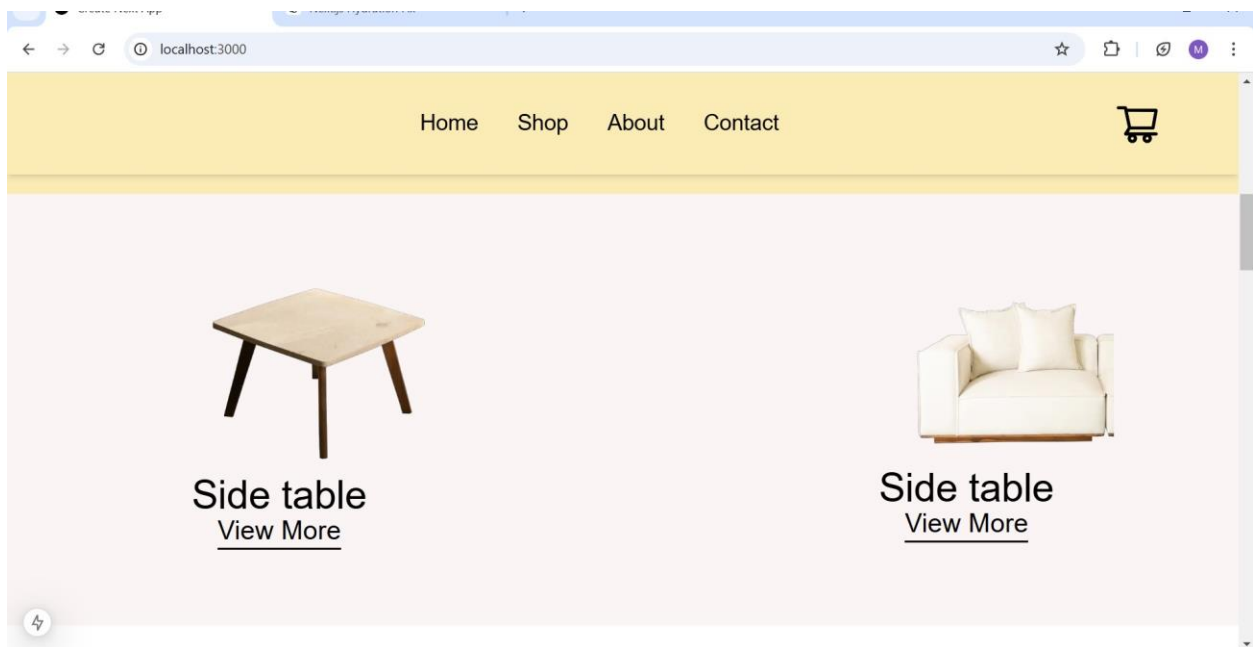

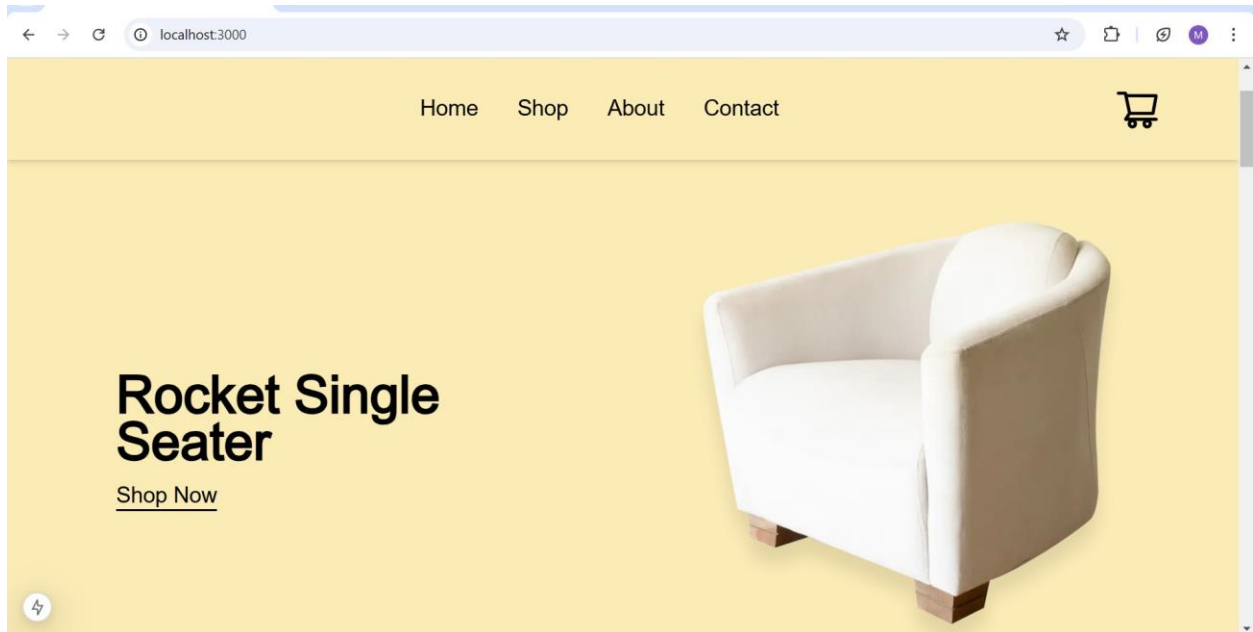

OverView :

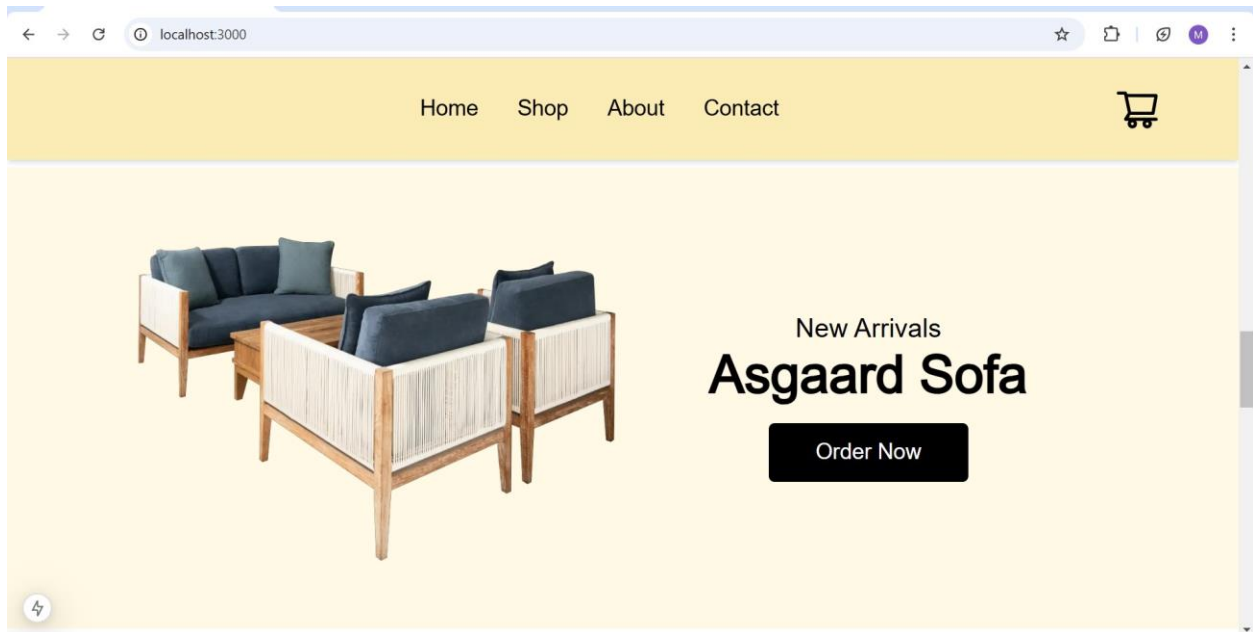

Today , I had worked on components that are compulsory in Ecommerce Website as according to the task given by ou mentor sir @Ameen alam , I had created a website my furniture mart , which focuses on furniture products used in homes and etc. Products includes chairs, stools, sofas, tables and etc catogories . I had fetched the data from given api then display it on frontend and after it shows all products listing dynamically . I had also integrated the concept of pagination for showing all the products . My website is fully responsive and had a very beautiful user-friendly interface that attracts customers to buy the products.

Components :

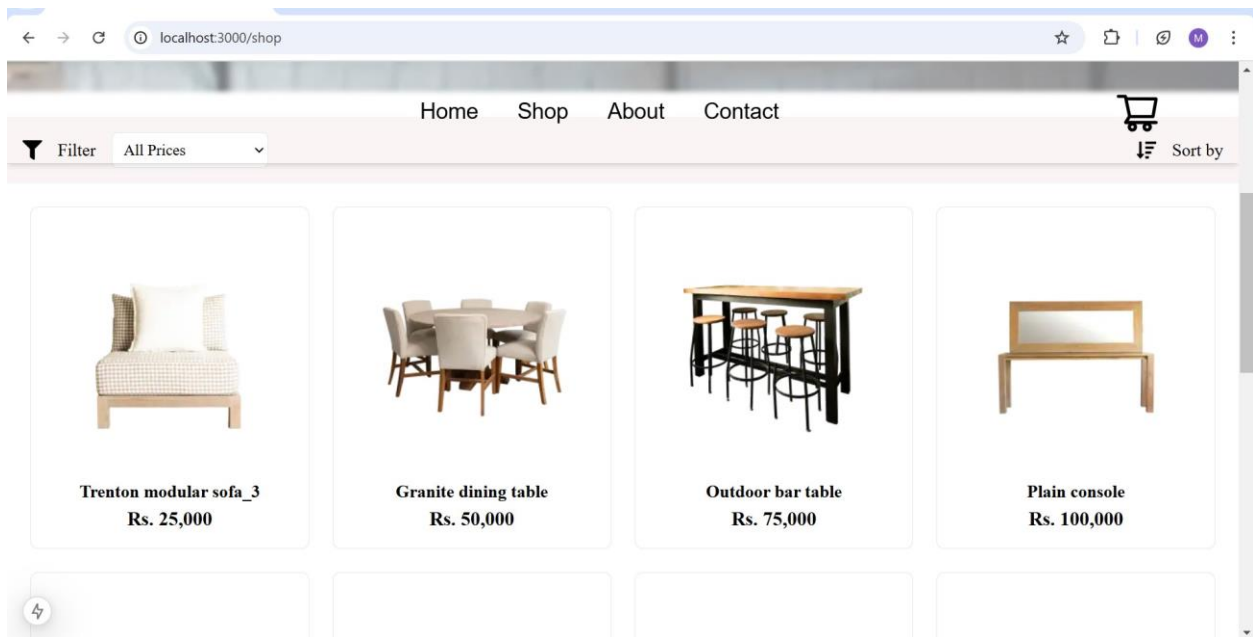

- Featured Products
- Dynamic description of all products
- Add to cart
- Checkout
- All Products
- Cart page
- Static products
- Blogs
- Main page
- Pagination
- My Account
